Other:

Some Seymour Arm cellular phone subscribers only have their phones active from 7:00p.m. to 7:00a.m. on weekdays and all day on weekends. Some of these people have a message service to take calls at other times. One possible method of contacting these people *in an emergency only*, who do not normally answer daytime weekday calls, is to phone three times, letting the phone ring at least 3 rings--hang up and redial immediately.
